

## OMC Client Testimony

I absolutely believe that without this program, I would have never:

1. Gotten saved and come to know Jesus Christ as my Lord and Savior.
2. Learned so much about myself and my defects of character and the knowledge and tools to be able to work on them.
3. The 12 Steps of AA, what they mean, their biblical comparisons, and how to work and apply them.
4. Be able to get sober and to stay sober with a purpose for any length of time.

I will be forever grateful to Our Master's Camp.

Take the first step to  
**REAL FREEDOM**

## Director's Plea

After personally struggling with drugs and alcohol for years, Our Master's Camp was the beginning of my life! Now I have the privilege of sharing this message of HOPE with others.

Our Master's Camp is different. While addressing necessary physical and emotional needs, we treat addiction as fundamentally spiritual. From our recreation areas, to group and individual counseling, to our participation in Christ-centered 12-Step meetings, to our biblical teaching, Our Master's Camp models this new life for men!

We care! Your loved one will not be a number or a dollar sign. Our staff's hearts are for them.

If you or someone you know is losing the battle with addiction, please contact us. We have addiction professionals ready to help.

Ben Parrish, Program Director
