I understand what I need to do and what I need to bring to the Camp. I understand that anything in addition to—or different from—this list must be approved by the program director or program facilitator. I understand that if I do not follow through on my end, then I may not be allowed to remain at the camp. I understand that if I bring anything that is not authorized, it may be sent back home, confiscated, or kept locked up until I graduate.
